**HTML5 NOTES:**

HTML5 provides / introduces new options for developing ads. The IAB has developed “HTML5 for Digital Advertising” (http://www.iab.com/html5) to help ad designers provide ads in HTML5 unit that will perform more successfully across the display advertising ecosystem. Please review this document and adopt its recommendations to help improve HTML5 ad performance in the industry.

CORPORATE DISCOUNTS

Earned Rates:
Earned rates are given to advertisers based on advertising frequency within a 12-month period. The earned rate is determined by the number of insertions. A spread counts as two insertions. Full pages and fractional pages count as single insertions. Demographic ads will count toward a company’s final earned frequency on a pro-rated basis (e.g., a 4-page unit going to 50% of circulation = 2X). Insertions from a parent company and its subsidiaries are combined to determine earned rates. Advertisers are short-rated or rebated based on year-end final level earned. The minimum number of insertions at each level must be met within the 2019 calendar or fiscal year.

Corporate Discount Program:
Effective with January 1, 2019 insertion orders, the Corporate Discount program is based on an advertiser’s 2018 net advertising, including digital spending, plus non-CME promotional project expenditures in all of the UBM Medica media. Please contact your account manager for more information and your discount rate.

Global Advertising Program:
In lieu of the previously mentioned discounts, the advertiser can opt to utilize the Optometry Times Global Advertising Program. This program is based on the planned increase in advertising dollars over the 2018 schedule in Optometry Times. To compute: Once the 2019 ad spend exceeds 20% of that base, investment savings begin (see chart below).

i) The projected spending at each level must be met within a calendar year. A minimum of $50,000 in 2019 net spending is required to qualify.

ii) For simplicity, and maximum savings, the GAP savings percentage will be taken off the product’s gross insertion rate. The GAP discount cannot be added to any other discount program.

iii) You can project what GAP level you will achieve for the year and begin to realize savings immediately. At your earliest convenience, please notify your Optometry Times account manager of your product’s planned GAP participation level.

iv) If the product does not meet the projected level, or exceeds its projected level, that product will be short-rated or rebated accordingly.

v) This discount program may not be combined with any other Optometry Times Group incentive program.

ADVERTISING INCENTIVE DISCOUNTS

Product Incentive Program (PIP Continuity Discount):
Run a minimum of three product insertions in Optometry Times and save. The more insertions, the more you save. Free pages count toward earned frequency but do not count toward the corporate discount program.

Product Incentive Program Criteria:

i) The minimum number of insertions at each level must be met within a calendar or fiscal year.

ii) For simplicity, and maximum savings, the Product Incentive Program percent savings will be taken off the product’s gross insertion expenditure. The PIP discount should be added to your corporation’s Corporate Discount Program earned discount, and the resulting total percentage is taken off of the gross insertion cost.

iii) You can project what Product Incentive Program level you will achieve for the year and begin to realize savings immediately. At your earliest convenience, please notify your Optometry Times account manager of your product’s planned Product Incentive Program participation level. If the product does not meet the projected level, or exceeds its projected level, that product will be short-rated or rebated accordingly. If the product is pulled off the market due to an FDA ruling, the accrued savings will stand, and the company will not be penalized for loss of product continuity.

iv) All of a product’s indications work together to attain a product’s insertion level.

Advertiser Conversion Discount:
New products advertising in Optometry Times that commit to a minimum of six issues during the year earn a 10% discount on every 2018 insertion. This program applies to new, converting advertisers that appeared in competitive optometric journals in 2018 but not in Optometry Times.
