

Refocus National Attention on Gastrointestinal Cancer Research

Register today for the
11th Annual Ruesch Center Symposium

The Ruesch Center for the Cure of Gastrointestinal Cancer Research at Georgetown Lombardi Comprehensive Cancer Center would like to invite you to the 11th Annual Ruesch Center Symposium. By advancing science and research, changing lives and outcomes, cultivating innovators of the future, & collaborating and sharing insights, the Ruesch Center believes the future of GI cancer treatment hinges on a highly personalized approach to finding the right drugs for the right patients.

REGISTER

Join fellow clinicians, researchers, patients, caregivers, policymakers, and representatives from industry as they gather this year in a special virtual setting to discuss, network, and debate critical issues related to GI cancers.

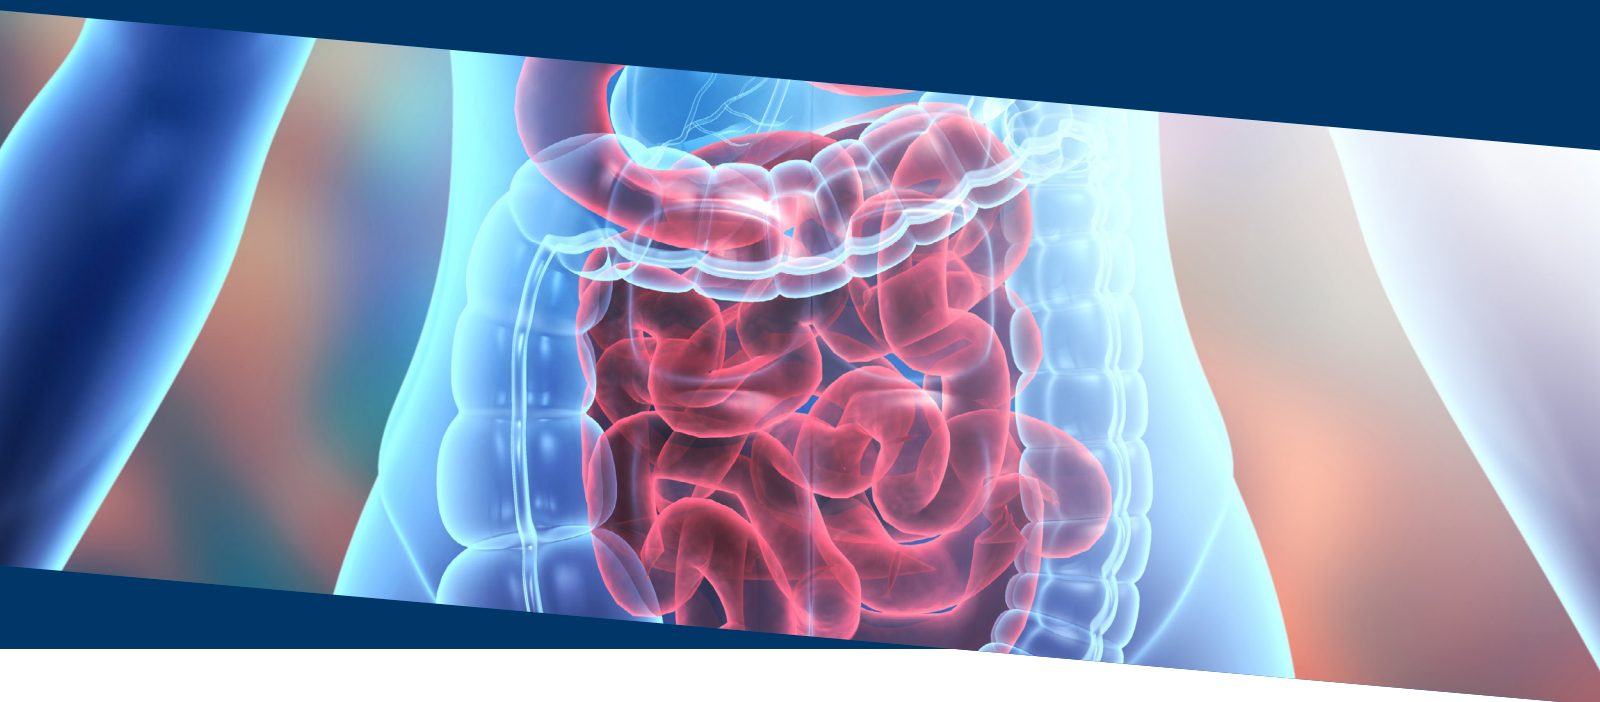

Friday, November 20

- Innovations in GI Cancer
- Special Session: Advances in Nuclear Imaging & Therapy for Neuroendocrine Tumors (presented by The Society of Nuclear Medicine & Molecular Imaging)

Saturday, November 21

- Precision Oncology Web Educational Resource (POWER)
- Patient Symposium
- Register today and join us as we work to realize the dream of individualized curative therapies through research, care, and advocacy.
